As a software developer with a background in real estate, I am skilled in time management and organization, and I have a great deal of experience in a client-facing environment. My technical skills and interests are suited for a broad range of industries, and I hope to work alongside, and learn from, a team of well-rounded developers.

Skills

Languages/Frameworks: Ruby, Rails, HTML/CSS, ActiveRecord
Systems/practices: Git, OAuth, Capybara, RSpec, Bootstrap, PostgreSQL

Projects

Pinspiration (group project)
https://github.com/annadolan/pinspiration
https://the-real-pinspiration.herokuapp.com/
Pinterest clone that also serves a JSON API for comments on pins.
Tech Stack: Rails, PostgreSQL, jQuery, Masonry (grid layout)

Root & Branch (group project)
https://github.com/annadolan/root_and_branch
http://root-and-branch.herokuapp.com/
